Judges

The application for leave to appeal is DISMISSED. This Court's appellate authority is limited to reviewing the merits of those issues reasonably framed by the content of the judgment or order from which the appeal is taken. See *People v Anderson*, 209 Mich App 527, 538; 531 NW2d 780 (1995) (This Court has jurisdiction only to decide any issues related to the order from which the appeal is taken.). The three issues that appellant Blu Perspective seeks to assert are not reasonably framed by the order it relies on to support its appeal. The February 5, 2021 order contains no language memorializing the denial of appellant's motion for limited intervention and to compel source of protected health information. As a consequence, the issues raised in the instant application rest outside the scope of review conferred by the February 5, 2021 order. The dismissal is without prejudice to appellant refiling its application accompanied by an order that memorializes the denial of its motion, within the time limits provided by MCR 7.205.
